

PLAKA – FLUP STOP

Plastic flexible seal plug

REF 04.01.02 - Version V01 - 12/08/2020

Manufacturer's specifications :

Description

FLUP stop is a flexible plastic seal plug made of soft PVC.

Application fields

FLUP is applied to improve the watertightness of formwork spacer holes, in absence of water pressure.

Installation instructions

FLUP stop needs to be pressed into position so that a high contact pressure to the interior wall of the pipe is guaranteed
